New Hampshire Community Passport (NHCP)

After a nine month nursing home stay, my grandfather wanted to move back to Peterborough, the town he has called home for 63 years. It is wonderful that he's receiving the help he needs to live at home in the town he loves.

Nancy

I stayed in the nursing home for two years. People said I was not taking care of myself because of my depression and my diabetes, which was out of control. I really wanted to go back to my friends and neighborhood. With the help available, I was able to do so and now I am living my life the way I want.

Joseph

I thought my brother, who has Down syndrome, would have to go to nursing home when my mother passed away. Instead, I found in-home services right in our town so he could live with me and my family.

Sarah

After my fall, my children were so worried about my well being. We all agreed that it was time for me to live in a nursing home. After eight months, I knew I wanted to live on my own again but I needed help. I'm so happy my wish came true and I'm home again.
