

LTC TESTING

SENTINEL SURVEILLANCE

SENTINEL SURVEILLANCE

- Every 10 Days (7-12 days is acceptable range)
 - 100% Staff
 - 10% Residents
 - Random / Targeted
 - Residents who are most likely to acquire infection as determined by facility medical director
 - Non-vocal or advanced dementia residents
 - Residents who leave regularly and return to the facility (e.g., frequent clinical appointments or hemodialysis)
 - New residents to the facility
 - Residents who wander the unit or frequently interact with other staff and residents
 - Random sampling of 10% of general population
- Both Groups tested as close together as possible

CRITERIA

- Inclusion
 - All LTCFs, as well as assisted living facilities (ALF) that are structurally attached to a LTCF, will be eligible for participation
- Exclusion
 - Facilities in the Cluster or Outbreak (Active will be case by case)
 - Staff and Residents that do not need to be tested
 - Current Positive or previous Positive (PCR and Antibody)
- *** Still want to set up your MAKO Account***
