

Emergency Preparedness: Incident Command & Exercise Fundamentals

August 19 OR December 17

This program is appropriate for all long-term care healthcare settings, including assisted living communities and ICF/IID communities.

AM Program:

Nursing Home Incident Command System (NHICS) **Granite State Health Care Coalition**

The Nursing Home Incident Command System (NHICS) is a specialized, all-hazards management framework that helps long-term care facilities coordinate emergency responses, manage daily operations during crises, and work smoothly with local or state emergency responders.

The Granite State Health Care Coalition designed this training session for long-term care facility leaders to review the NHICS procedure and how NHICS can support the organization.

Training Objectives:

- NHICS Overview
- Roles & Responsibilities
- Demonstration of Incident Action Planning & NHICS Tools/Documentation

PM Program:

Introduction to ESF-8 **Stephanie Locke, NH DHHS**

Exercise Fundamentals, **Granite State Health Care Coalition**

The Granite State Health Care Coalition (GSHCC) Exercise Fundamentals training is designed for healthcare facilities leadership to provide an understanding of the Homeland Security Exercise Evaluation Program (HSEEP) concepts of the Exercise Cycle.

Training Objectives:

- Discussion-based Exercises vs. Operations-based Exercise
- How to plan, conduct, evaluate, and report exercise findings
- Tabletop Exercise Activity
